V. ANDALUSIAN LEGACIES (Performance)

The group Al-Andalus is able to faithfully present the music and dance of ancient Arabic & Spanish cultures--with native performers. The Andalusian tradition was born in southern Spain where the Arabs ruled for nearly eight centuries from 711 to 1492. This program begins with Ancestral instruments & music, improvised Islamic poetry accapella and Classical Arabic, Sephardic & Spanish/Flamenco music & dance of the 10-16 centuries. *Andalusian Legacies* demonstrates the impact of that period on the contemporary music of Spain. Al-Andalus performs Classical Arab and traditional Spanish Flamenco repertoires and end with contemporary works, melodic and rhythmic improvisations blending both traditions. *Andalusian Legacies* is a creative journey that mirrors cross-cultural communication exploring what we carry inside ourselves our voyage & in assimilating ourselves on our return. Subtly uniting sound and movement, the old and new are entwined, captivating the audience with its colorful beauty and intensity. (Number of Performers: 5).

Al-Andalus Ensemble Scholarly Lectures, Workshops and Residencies

ANDALUSIAN WOMAN’S ENSEMBLES: SEVEN CENTURIES OF SILENCE

Scholarly lecture combined with video & slides presented by Julia Banzi (Ph.D. Ethnomusicology)

While the historical record is rich with mention of women Andalusian musicians of the 9th-13th centuries CE, there is a notable scholarly void documenting the existence and significance of Andalusian women’s ensembles during the seven centuries that followed. What became of these female musicians and their traditions? Did they cease to exist? Were they collectively forgotten or simply deemed unworthy of remembrance? This presentation is the first to document the phenomenon of female ensembles and explores factors that have contributed to their persistence over the centuries. It explores how both recent and older Iberian memories continue to influence the dynamics of collective assembly, leading us to reconceptualize intersections of history, memory, music, religion, gender and identity.

Length of time: 30-60 minutes (lecture, video, slides, question & answer period)

Especially appropriate for International Women’s Month
